DORSEY'S SELF-RAKING REAPER and MOWER, IMPROVED FOR 1860.

THE MOST COMPLETE LABOR-SAVING HAR-VESTER KNOWN. T IS A WELL KNOWN FACT, THAT there is no work incident to the Farmer's duties, more laborious and toilsome, than that of raking or forking off the sheaves, from ordinary Reaping Machines, and none other than hearty,

robust men, with vigorous constitutions, can endure and perform it properly.

There is no necessity of referring to this matter at length, as every owner of an ordinary Reaper will acknowledge this to be the truth. On the commencement of Harvest, the question does not arise as to "who may perform the Raker's part?" but on the contrary, which one of the number has the ability and manly strength, and will consent

to do it? that is the question to be settled. Compare for one moment the difference :- The DORSEY MACHINE needs but a teamster, other machines a man to rake off the wheat, and also a driver to attend the horses. Now the man who will undertake to "rake off," cannot be a small man, otherwise he will lack the physical power to do this work allotted, then, of course, his weight is added to the draught of the machine, and the horses compelled to draw this extra weight over soft ground-and after all this additional waste of time and labor, his work is but imperfectly performed-let him be ever so skillful in the management of his rake or fork, he cannot deliver a neat sheaf, or fail to scatter the Straw-On the other hand, DORSEY'S MACHINE, (as before stated,) requires only a good driver, the balance of the work is done, and done perfect by the Machine.

The Grain is cut at the rate of sixteen acres per day. The sheaves delivered compact and straight at the 'butts,' and if the binders do their luty, a Horse Rake to glean would be useless. Contrast the difference, and judge accordingly. Among the recent improvements, I have substituted maileable iron guards for east ones.

The Knives, back blade and eye, are of steel The shape of the blade has also been remodeled and improved. A Self-Adjustible Lever throws the whole Machinery in or out of gear, by a back or forward movement of the Horses, without touching the Lever by hand.

The Divider has been improved and strengthened with grain wheel inside, decreasing side draught materially. The Tongues have Double and Single Trees and Yokes ready to attach the horses.

Asa Mower, DORSEY'S MACHINE is second to none other; it will cut as much grass, and as well as any other Machine can do it. The Trackclearer has joints to rise and fall with unequa surfaces, and will clear the track properly. Jeer For cutting Clover Seed, this Machine is

FARMS FOR SALE .- The subscriber, believing that the declining state of his health requires the ameliorating influence of a more South-ern climate, offers his FARMS, in the Piedmont

region of Virginia, Culpeper county, at private sale. There is no healthier region of country in Virginia than this, and perhaps none more desirable for agricultural pursuits, all things considered. His home place, STILLMORE, lately the residence of the Hon. J. Morton, contains 956 (nine hundred and fifty-six) acres of Land, now beautifully set in Clover, Timothy, Orchard and Blue Grasses, except the field planted in Corn, and is divided by good fences into seven fields, all of which are well watered with never failing streams, excepting one field, which has no running water in it for two months of Summer, if dry, when it is necessary to use ponded rain water. The soil is generally the Blue and Red Chocolate Slate Soil, which so tenaciously holds all manures applied to it, producing the cereals, particularly wheat, and the grasses, in great luxuriance.

The FARM lies beautifully, and has on it a

sufficient supply of wood and timber for all farming purposes. The DWELLING, situated on an eminence nearly in the middle of the farm, and over-looking most of it, stands in a lawn of some ten acres, planted in trees of every variety, which grow in our climate, particularly the Evergreens. The Orchards, young and thrifty, and now beginning to bear, comprise all the varieties of Fruit, with a fine variety of grapes. The house is a good one, and contains four rooms on the first loor besides a Library and closets, and four rooms on the second floor. The out-buildings are numerous and in good condition, the cabins being particularly well built. Stillmore is six miles south of Brandy Station, on the Orange and Alexandria Railroad-thus one can reach Richmond, Alexandria, Washington and Baltimore in a few hours. The neighborhood is densely populated with intelligent, moral and refined people-churches of all denominations are convenient, and good male and female schools are in successful operation at the Court house, which is nine miles distant. Few farms offer better inducements to the grazier and wheat grower. Stillmore being particularly noted for its wheat producing capacity, in this fine wheat growing region, and now that every field has been well under-drained, mostly by the use of rock, its capacities have been increased.

The subscriber is always at home-he will take pleasure in showing the place critically, to those n search of a desirable farm. By stopping at Brandy Station, Stillmore can be reached in an hour. The terms will be made accommodating to the

HIS OTHER FARM, GARVEY, is separated rom the homestead by the main road running parallel with the beautiful Rapidan river-this road leads to Fredericksburg, distant by plank 28 miles, and on to Raccoon Ford Mills, six miles This FARM is acknowledged to be one of the

most beautiful in Culpeper County. It contains 600 ACRES OF LAND, of which fully sixtyfive are rich alluvial River low grounds. It is divided into five fields, with a compact body of wood and timber land, sufficient for all the demands of the farm. The fields not in the process of cultivation, are well set in Clover and Timothy. The BUILDINGS on GARVEY are all new, excepting the dwelling, which is small, but in good condition. It contains two good rooms below stairs, besides closets, and two piazzas, and three rooms above. The Kitchen, Ice House, Negro Houses, Meat House, Tobacco and Corn Houses, are new and substantially built. The Stable is large and commodious, containing gear rooms, chop rooms, and a loft for hay.— Eight or ten Springs of never failing veins of water are to be found all over the farm. The soil is a rich loamy Red Chocolate, easily cultivated, and productive, six laborers and eight horses or mules being sufficient. The view from Garvey is very imposing, commanding the beautiful valley of the Rapidan, for several miles, and the chain of the Blue Ridge Mountains. The subscriber will be pleased to show his farms to any person or persons in search of desirable homes. He invites a close inspection, and will reply more particularly to any letters addressed to him on the subject. JOHN TAYLOR.

Stevensburg, P. O., Culpeper Co., my 12-eotf COTTAGE RESIDENCE FOR SALE ON the most elecated point in the beautiful town Warrenton, the county seat of Fanquier, Virginia .- A GOTHIC COTTAGE of eight rooms, four on each floor. This house is new, having been built within the last five years, of the best materials, in the most substantial manner. It is replete with every convenience. The grounds comprising EIGHT ACRES, are divided into a Lawn, filled with an abundance of shade and & S Commercial Wharf, Boston; GEORGE fruit TREES, a very productive GARDEN, well stocked with fruit, while the remainder of the land is well set with grass for mowing and pasture, with a large and never failing Spring of good and soft water. The out buildings, consisting of Servants' House and Kitchen, Meat House, Privy, Wood House, Stable, and Carriage House, are also new, and built in the best manner, of corresponding architecture to the dwelling. There is immediately along side the house, a large cistern, capable of containing 190 barrels of water, supplied with a force pump of such power, as to throw the water over the house.

The salubrity of this situation is prominent, standing as it does, some 700 feet above tide water, with no low grounds in its neighborhood. It is entirely exempt from all causes of miasmatic sickness. The society of the town and neighborhood is unsurpassed. Churches of all denominations, and good schools for both sexes, with a daily communication with Alexandria and the North, on the one hand, and with Richmond and the entire South and Southwest on the other, by means of Railroad. It offers to the gentleman of leisure, or the professional man, a most desirable residence. To the Planter from the South, seeking a home for the summer, with all the advantages of a mountain climate, with freedom from sickness, and the pleasures of a cultivated society, it has unexampled attractions. It is unnecessary to enlarge upon the advantages of this residence, for it is presumed that any one seeking abundance of wood and timber, and every field such a home will visit and examine for himself. If desired, the FURNITURE, most of which is new, and all good, will also be disposed of. For terms, which will be made accommodating, ap-WILLIAM N. BISPHAM.
